How to use

Read in order or start with your next decision. Use the HTML planner included in the package. Planner data stays in your browser; export a copy to keep a backup.

01 / Start with the wedding, then choose the clothes

The decision

Agree the date, ceremony, reception, dress code, venue surfaces and weather contingency before shopping. A beautiful outfit can still be wrong for the setting.

Your action

Write one sentence describing the occasion, the level of formality and how you want to feel. Agree it with your partner.

Record in your planner

Decision: _____

Responsible person: _____

Agreed date: _____

Open point / notes: _____

06 / Make the first appointment productive

The decision

Bring the date, venues, dress expectations, budget and a few reference images. Describe comfort and movement honestly. Confirm exact embroidery text, spelling, placement and dates before production begins.

Your action

Save the written specification and appointment notes together. Distinguish the wedding date from the agreed delivery date.
